## Profile

**Danhild / Skandinavisk Orgelcentrum has now existed for almost 40 years. In the year 2022 we can therefore look forward to an anniversary.**

**We have manifested ourselves as one of the country's leaders in church music products, as you can see here in our catalog.**

**Danhild / Skandinavisk Orgelcentrum has built and delivered church organs for Danish churches, theatres and chapels. Affordable standard practice organs as well as custom-built ones. In addition, grand pianos as well as accessories for organists and musicians for all needs.**

**We take great pride in being a serious advisor and thereby strengthening the collaboration with our customers.**

**Danhild / Skandinavisk Orgelcentrum  
[www.danhild.com](http://www.danhild.com) or [www.churchorgans.com](http://www.churchorgans.com)**

**Lasse Holy  
Sales Manager**

**Flemming Danhild Fald  
Owner**

**Main features of all our organs:**

- \* Optimal quality with modular construction, which ensures very long durability**
- \* Danish structured register selection**
- \* Complete sound adaptation to the church room**
- \* Is not sensitive to changes in humidity and temperature, so that the instrument does not need to be tuned and does not require separate maintenance**
- \* Simple setting of pitch for use with e.g. pitch change if one hymn melody is too high for the congregation**
- \* Register settings can be saved to facilitate the organ's sound variations**
- \* Future-proof (the organ sound can be adapted to the current style requirements)**

Price from € 47.800.- excl. local VAT

Profit: 63%

All prices are exclusive transport, installation and voicing.

# DANHILD 25 EH Hauptwerk

## Hybracoustic church organ for the smaller church

The sonorous style is based on classical baroque with a broad singing Principal foundation. The instrument has been developed in collaboration with leading organists to be able to meet the highest demands for both the functional and the sonic aspects

*The organ has an option for 2 genuine styles, each with its own disposition.  
On each register tab there are therefore 2 register names.*

25 registers built with Hauptwerk

2 manuals of 61 keys

30 tones parallel flat pedalboard

600 Register combinations

Transposition up / down

The Swell Pedals are located in the middle, so you can freely use either the left or right foot

Large music stand

Never needs tuning

5 year warranty on all electronic parts

Full license for Hauptwerk Advanced

**Profit: 56%**

# DANHILD 22 UNO Hauptwerk

**Great church organ sound - easy to transport**

The organ has been developed with Danhild's 32-Bit "Dry" samples and gives you an opportunity to enjoy an absolutely amazing organ sound.

The system comes complete with 23" touch screen with integrated PC, Hauptwerk VI Advanced License, keyboard and connecting cables.

The organ contains i.a. both 16-foot and 4-foot octave couplers, which gives the 22 register organ a very large sound.  
Contains 18 different reverb options.

+

This solution combines optimal quality with simple operation at a very favorable price!  
PC, Monitor and keyboard, Complete PA system of 2 x 200 Watt (incl. 3 stands and bench)

*From € 4.300.- excl. Local VAT*

**Profit: 60%**

## DANHILD Hybrid organs

You have probably upgraded the church's PC  
-have you also had your organ upgraded?

DANHILD has developed a unique system for expanding new or existing pipe organs.

With respect for the qualities of the existing pipe organ, Danhild can preserve the fully mechanical playing style and expand the instrument with Hybracoustic registers.

- \* Installation of setzer combinations
- \* Restoration of the pipe organ
- \* Future total maintenance

Aal church, Jylland \* extension from 13 til 24 registers

Fine small pipe organs can become the basis for a significant sound expansion

New Hybracoustic registers can merge completely with the pipe sound.

Hornbæk church, Sjælland \* expansion from 12 to 36 registers  
Built with Danhild digital music viewer, digital register control, camera and monitors

A Danhild hybrid extension provides the congregation a larger and broader sonic foundation supporting the hymn song.

Several tonal variations

Further expansion with:

Digital sheet music display

Digital register control

Camera / monitor solutions

Heating / ventilation

# DANHILD church bells

## Complete digital Carillons for your church

Danhild Carillons have been developed in collaboration with several of danish church councils, which expressed a desire to expand their existing manual bells to "automatic ringing".

Danhild offers 4 versions of digital bells, -all with programmable "automatic" ringing. The system can be easily installed in almost any church tower.

The organist can play directly on the 48 or 61 bells.

The Carillon system comes with a "bell computer", which contains a selection of Prayers, *Rings, beautiful and loved hymns for the holidays of the year.*

**Profit: 58%**

The 4 systems vary with respect to features:

From simple settings to advanced options with direct recording from keyboard as well as unlimited number of control panels for seasons and the holidays of the church year.

The Ultimate + system comes with complete sound studio, which gives the organist extensive editing capabilities.

Price *from* € 15.600,- excl. local VAT

Amazing Grace	Dejlig er Jorden	Du som har tændt millioner af stjerner	Fred hviler over land og by	Hil dig Frelser
I skovens dybe stille ro	I Østen stiger solen op	Kirkedøkke mellem ædle malme	Klokken slår	Mit hjerte altid vanker
Morgenstund har guld i mund 1	Morgenstund har guld i mund 2	Nu fryde sig hver kristen mand	Op al den ting	Se nu stiger solen
Ringninger	Skift Panel	Opsæt tid	Stop
